

MATSYACARE PRIVATE LIMITED

Animal Feeding & Nutrition Solutions

"FEEDING HEALTH, POWERING PRODUCTIVITY"

High Quality Feed Supplements for Poultry, Dairy & Livestock
Scientifically formulated to improve growth, performance, and overall animal health with trusted and reliable nutrition solutions.

ABOUT US

MATSYACARE PRIVATE LIMITED is a growing Indian company working in the field of Animal Feeding and Nutritional Solutions. The company is dedicated to improving the health, growth, and productivity of animals by providing high-quality feed supplements and nutrition products.

In today's farming system, proper nutrition plays a very important role in livestock performance. Matsyacare understands this need and provides scientifically developed feed solutions that help farmers and feed manufacturers achieve better results.

The company focuses on delivering products that are safe, effective, and result-oriented, helping animals grow healthier and perform better.

Matsyacare Private Limited was established with the aim of bringing advanced nutrition solutions to the animal feed industry.

From the beginning, the company has focused on:

- Quality products
- Scientific formulation
- Customer satisfaction

The company is continuously growing and building trust among:

- Farmers
- Distributors
- Feed manufacturers

Matsyacare is working to become a reliable and trusted brand in animal nutrition across India.

Director's Message

At **MATSYACARE PRIVATE LIMITED**, we believe that right nutrition is the key to healthy animals and better farming results. Our aim is to provide high-quality and scientifically developed feed supplements that improve growth, immunity, and productivity of livestock

We understand the challenges faced by farmers and feed manufacturers, and therefore we focus on delivering reliable, effective, and result-oriented solutions. Every product is carefully formulated using quality ingredients and modern techniques to ensure consistent performance.

Our commitment is to quality, innovation, and customer satisfaction, while building long-term relationships based on trust.

We thank all our customers and partners for their continuous support and look forward to growing together.

Rajesh Kumar

VISION, MISSION & VALUES

OUR VISION

Our vision is to become a leading company in the animal feeding and nutrition industry, known for quality, innovation, and trust.

We want to support farmers and businesses by providing modern and effective feeding solutions that improve livestock productivity.

OUR MISSION

Our mission is to provide:

- High-quality feed supplements
- Balanced nutrition solutions
- Affordable and effective products

We aim to:

- Improve animal health
- Increase productivity (milk, growth, performance)
- Support farmers with better results

OUR CORE VALUES

- **Quality:-** We always focus on providing premium quality products with consistent results.
- **Integrity:-** We believe in honest and transparent business practices.
- **Innovation:-** We use scientific research and modern technology to develop better products.
- **Customer Focus:-** We understand farmers' problems and provide practical solutions.
- **Animal Welfare:-** We care about animal health and provide nutrition that supports their well-being.

PRODUCT RANGE

At **MATSYACARE PRIVATE LIMITED**, we provide a wide range of high-quality animal feed supplements that are scientifically designed to improve animal health, growth, and productivity.

Our product range mainly includes Feed Grade Amino Acids and Nutritional Additives, which play a very important role in modern animal feeding.

These products are carefully formulated to ensure:

- Better growth performance
- Improved digestion
- Strong immunity
- Higher production (milk, meat, eggs)

In addition, we also manufacture and supply the following key feed products:

- Vitamin and Mineral Premix
- Toxin Binder
- Bypass Fat
- Mono Calcium Phosphate (MCP)
- DiCalcium Phosphate (DCP)
- Bypass Protein

These products are essential for improving overall animal nutrition, feed efficiency, and productivity.

Below is the detailed explanation of our major products:

L-LYSINE HCL (Feed Grade)

L-Lysine is one of the most essential amino acids required in animal nutrition. It is very important for proper growth and protein formation.

₹000

KEY BENEFITS:

- Improves protein synthesis in animals
- Helps in faster growth and weight gain
- Supports muscle development
- Improves feed conversion ratio (FCR)
- Reduces feed cost by better utilization

APPLICATIONS:

- Poultry feed
- Dairy cattle feed
- Pig and livestock feed

DL-METHIONINE (Feed Grade)

DL-Methionine is a sulfur-based amino acid that is very important for metabolism and overall health.

₹000

KEY BENEFITS:

- Improves digestion and nutrient absorption
- Supports liver function
- Enhances immunity
- Promotes healthy feather and skin development in poultry
- Improves overall performance

APPLICATIONS:

- Poultry industry (very important)
- Animal feed manufacturing
- Livestock nutrition

L-THREONINE (Feed Grade)

L-Threonine is an essential amino acid that plays a major role in maintaining gut health and protein balance.

KEY BENEFITS:

- Improves gut health and digestion
- Supports immune system
- Helps in better nutrient absorption
- Maintains protein balance in feed

APPLICATIONS:

- Poultry feed
- Dairy animals
- Feed formulation industry

₹000

L-TRYPTOPHAN (Feed Grade)

L-Tryptophan is used to control stress and improve animal behavior and appetite.

KEY BENEFITS:

- Reduces stress in animals
- Improves feed intake
- Supports better growth
- Improves mood and behavior in livestock

APPLICATIONS:

- Poultry farms
- Pig farming
- Stress management in livestock

₹000

CHOLINE CHLORIDE (60% & 70%)

Choline Chloride is a very important nutritional supplement for liver function and fat metabolism.

₹000

KEY BENEFITS:

- Prevents fatty liver syndrome
- Improves metabolism
- Supports brain and nerve function
- Increases milk production in dairy animals
- Improves overall productivity

APPLICATIONS:

- Poultry feed
- Dairy cattle
- Animal nutrition industry

VITAMIN AND MINERAL PREMIX

Vitamin and Mineral Premix is an essential nutritional supplement that provides balanced vitamins and minerals required for proper animal growth and health.

₹000

KEY BENEFITS:

- Improves immunity and disease resistance
- Supports overall growth and development
- Maintains proper metabolic functions
- Enhances reproductive performance
- Improves overall productivity

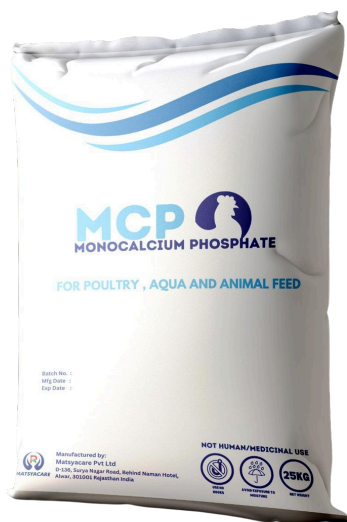

APPLICATIONS:

- Poultry feed
- Dairy cattle
- Livestock nutrition

MONO CALCIUM PHOSPHATE (MCP)

Mono Calcium Phosphate is a rich source of calcium and phosphorus, essential for bone strength and growth.

₹000

KEY BENEFITS:

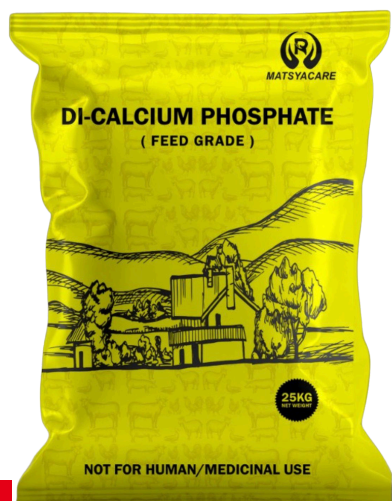

- Strengthens bones and teeth
- Supports proper growth
- Improves feed efficiency
- Maintains mineral balance
- Supports skeletal development

APPLICATIONS:

- Poultry feed
- Dairy cattle
- Animal feed industry

DICALCIUM PHOSPHATE (DCP)

DiCalcium Phosphate is widely used as a mineral supplement to improve bone health and overall performance.

₹000

KEY BENEFITS:

- Improves bone strength
- Enhances growth and development
- Supports better feed utilization
- Maintains calcium and phosphorus levels
- Improves productivity

APPLICATIONS:

- Poultry feed
- Livestock feed
- Feed manufacturing

BYPASS PROTEIN

Bypass Protein is a high-quality protein supplement that passes directly to the intestine for better absorption and utilization.

₹000

KEY BENEFITS:

- Improves milk production
- Supports muscle development
- Enhances growth rate
- Improves reproductive performance
- Provides high-quality protein nutrition

APPLICATIONS:

- Dairy cattle
- Livestock farming
- Animal nutrition industry

RUMEN BYPASS FAT (PROMAT)

Rumen Bypass Fat is a high-energy supplement designed to improve milk production and milk fat in dairy animals without affecting rumen activity.

₹000

KEY BENEFITS:

- Increases milk yield and fat percentage
- Provides instant energy
- Improves body condition
- Supports better productivity
- Helps prevent energy deficiency during early lactation

APPLICATIONS:

- Dairy cattle
- Buffaloes
- High-yielding livestock
- Lactating animals

TOXIN BINDER

Toxin Binder is used to control harmful toxins present in animal feed, which can affect animal health and performance.

₹000

KEY BENEFITS:

- Binds and removes toxins from feed
- Protects animals from diseases
- Improves digestion and gut health
- Enhances feed quality
- Reduces risk of contamination

APPLICATIONS:

- Poultry feed
- Cattle feed
- Feed manufacturing industry

Company Legal Documents

Manufacturing & Quality Control

Matsyacare follows strict quality standards similar to top industry companies.

Our Process Includes:

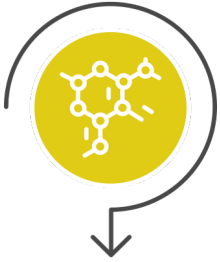

- Selection of high-quality raw materials
- Scientific formulation
- Quality testing at every stage
- Proper packaging and storage

We ensure that every product is:

- Safe
- Reliable
- Effective

Feed supplement ingredients

Amino acids

Essential building blocks for animal growth.

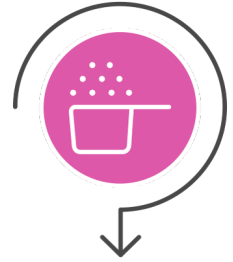

Vitamins

Crucial for various metabolic processes.

Minerals

Support bone health and overall well-being.

Nutritional additives

Enhance the nutritional value of the feed.

Ingredient benefits

Enhanced digestion

The ingredients are combined to improve digestion.

Optimal absorption

The ingredients are combined to ensure optimal absorption.

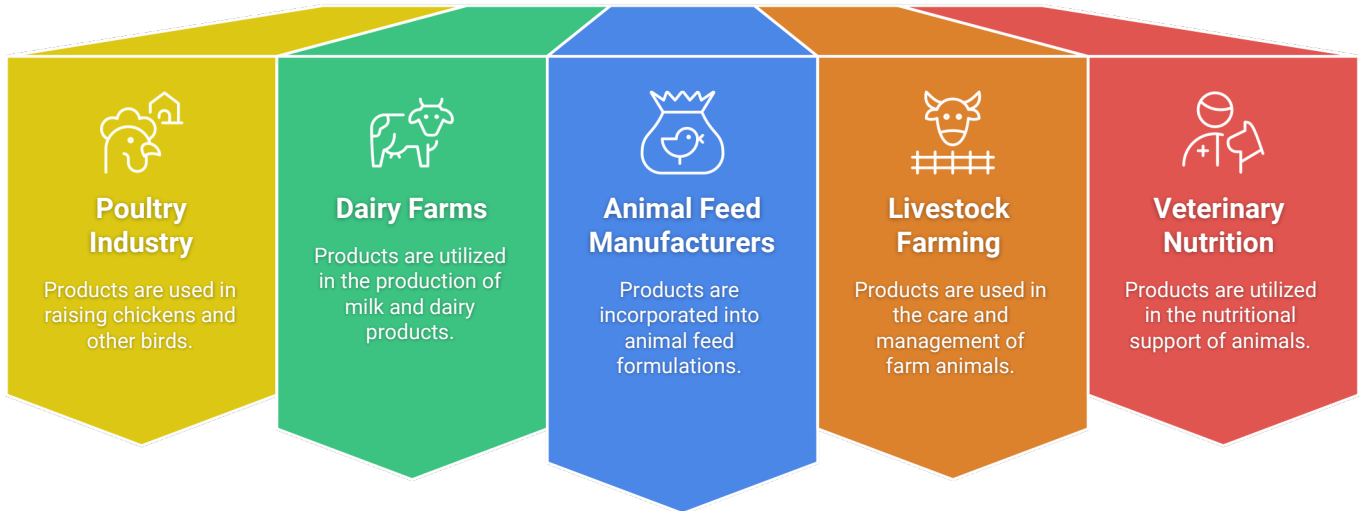

Superior performance

The ingredients are combined to ensure superior animal performance.
