ABOUT US

Matsyacare Pvt. Ltd. is a professionally managed pharmaceutical and animal nutrition company committed to delivering high-quality, reliable, and science-based healthcare solutions. The company focuses on developing products that support better health, improved performance, and long-term wellbeing for both humans and animals.

Driven by quality and innovation, Matsyacare specializes in the manufacturing of pharmaceutical formulations and animal feed supplements that meet stringent quality and safety standards. Each product is developed using carefully selected ingredients, modern manufacturing practices, and consistent quality control processes to ensure effectiveness and reliability.

With its headquarters in Alwar, Rajasthan, Matsyacare operates with a strong technical foundation and experienced professionals. The company offers a diverse range of services including pharmaceutical manufacturing, animal nutrition solutions, contract manufacturing, private labeling, and custom formulation support. This integrated approach allows Matsyacare to meet the varied requirements of healthcare providers, distributors, and business partners.

WHAT DO WE DO?

- Manufacture high-quality pharmaceutical products and animal nutrition supplements with a focus on safety, efficacy, and consistency.
- Provide contract and private-label manufacturing services, offering complete support from formulation to packaging.

VISION

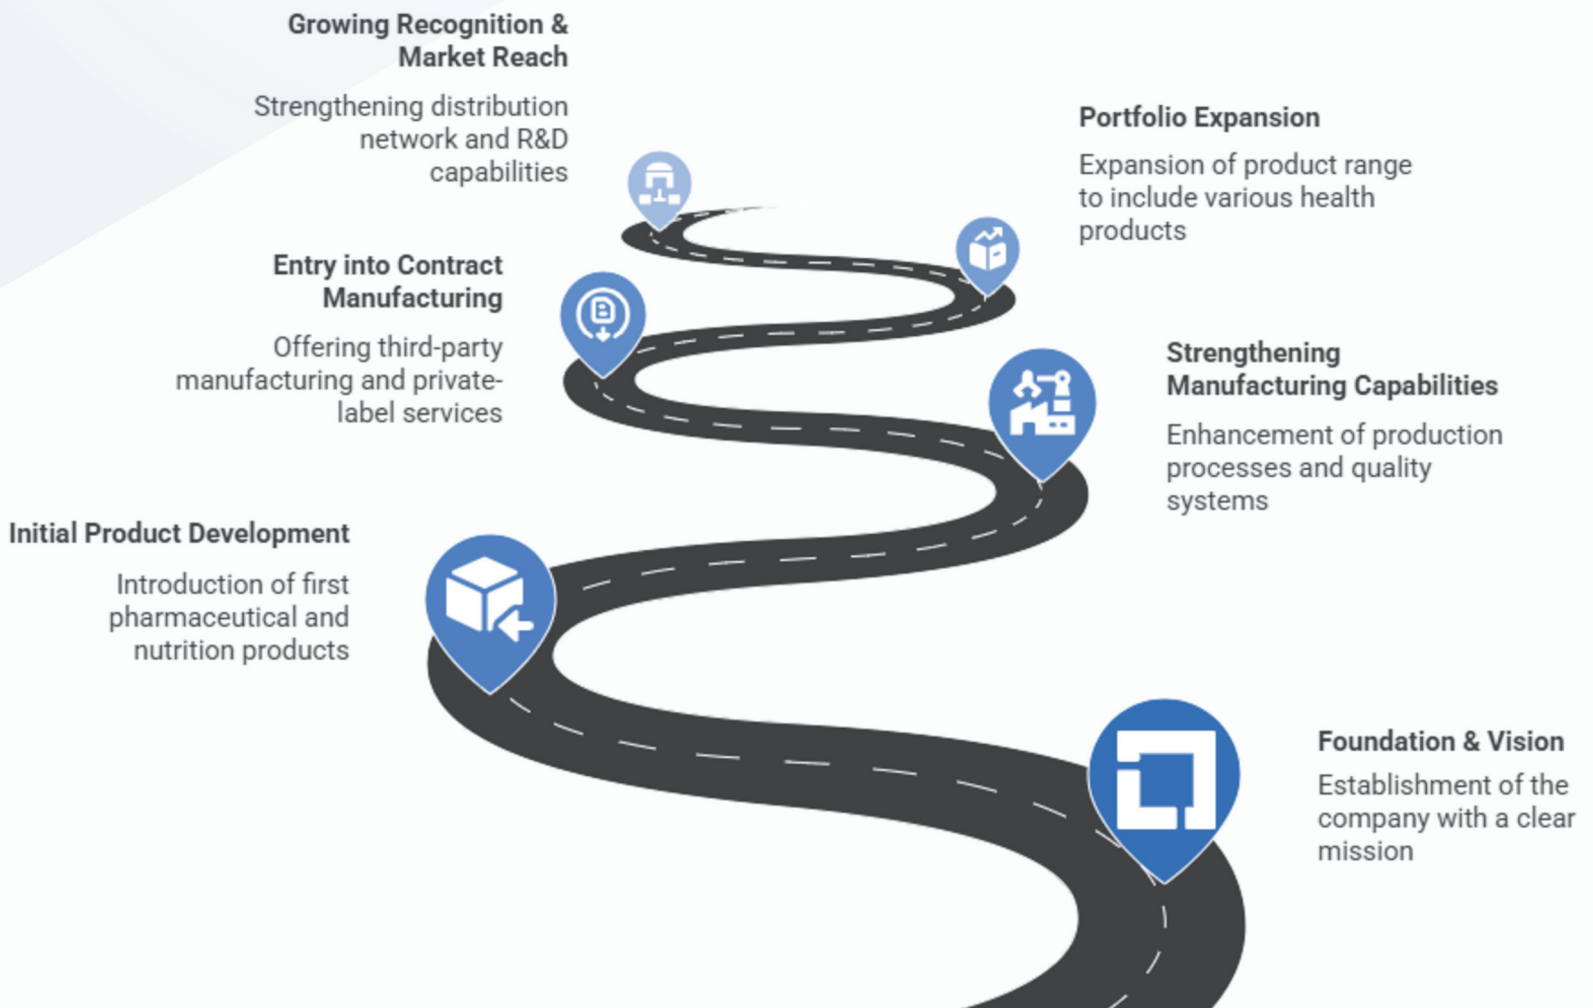

To become a globally trusted leader in pharmaceutical and nutritional healthcare by delivering innovative, science-driven, and reliable solutions that enhance human and animal well-being.

MISSION

- To manufacture high-quality, safe, and effective pharmaceutical and nutrition products that improve health and productivity.
 - To continuously innovate through research, technology, and best industry practices.
 - To build long-term partnerships through transparency, trust, and customer-focused service.
 - To support healthcare and livestock sectors with accessible, affordable, and superior formulations.
 - To uphold excellence, ethics, and quality at every stage from development to delivery.

COMPANY HISTORY

DIRECTOR'S MESSAGE

MR. RAJESH KUMAR

Founder & Director – Matsyacare Pvt. Ltd.

Mr. Rajesh Kumar, the visionary Founder and Director of Matsyacare Pvt. Ltd., leads the company with a strong commitment to quality, innovation, and ethical business practices. With deep insight into the pharmaceutical and nutrition industries, he set out to build an organization that delivers trustworthy, science-driven solutions for both human and animal health.

Under his leadership, Matsyacare has grown into a reliable and future-ready brand recognized for its high-quality formulations, advanced manufacturing standards, and customer-focused approach. His emphasis on research, continuous improvement, and transparent operations forms the foundation of the company's success.

Mr. Rajesh Kumar believes in creating long-term value—strengthening partnerships, empowering clients, and contributing to healthier communities. His dedication, strategic vision, and hands-on leadership continue to guide Matsyacare toward greater innovation, global standards, and sustainable growth.

OUR PRODUCT

TABLETS

Paramat-SP

ParaMat-SP is a powerful combination used for effective pain relief and inflammation control. It helps reduce swelling and improves recovery in musculoskeletal conditions.

Key Benefits:

- Provides fast pain relief
- Reduces inflammation and swelling
- Improves mobility and comfort
- Supports faster recovery

Applications:

- Joint and muscle pain
- Arthritis
- Post-operative pain
- Back pain

Celoxacin 200 is a broad-spectrum antibiotic used to treat various bacterial infections effectively.

Key Benefits:

- Fights a wide range of bacterial infections
- Provides dual antibiotic action
- Ensures faster recovery
- Improves infection control

Applications:

- Respiratory infections
- Urinary tract infections
- Gastrointestinal infections
- Typhoid

LEVOMAT-M

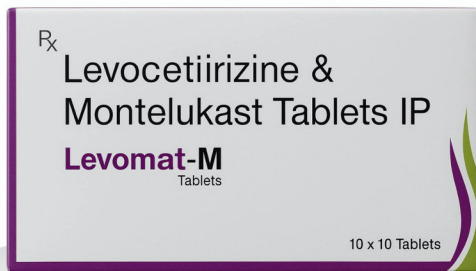

Levomat-M is an anti-allergic formulation that provides relief from allergy and respiratory issues.

Key Benefits:

- Reduces allergy symptoms
- Controls sneezing and itching
- Supports respiratory health
- Provides long-lasting relief

Applications:

- Allergic rhinitis
- Seasonal allergies
- Asthma-related allergies
- Skin allergies

CAPSULES

PD-MAT

PD-Mat is used for managing acidity and improving digestion by controlling acid production.

Key Benefits:

- Reduces stomach acid
- Relieves nausea and bloating
- Improves digestion
- Provides long-lasting relief

Applications:

- Acid reflux
- GERD
- Indigestion
- Gastric discomfort

RD-MAT

RD-Mat helps in reducing acid secretion and improving stomach movement.

Key Benefits:

- Controls acidity
- Improves gastric motility
- Reduces nausea
- Provides digestive comfort

Applications:

- Heartburn
- Gastritis
- Acid-related disorders

Cholexol-ASP is used for heart health and cholesterol management.

Key Benefits:

- Reduces cholesterol levels
- Prevents blood clots
- Supports heart health
- Improves circulation

Applications:

- Cardiovascular diseases
- High cholesterol
- Heart protection

LYCOTRIAL-FORTE

A complete multivitamin and antioxidant supplement for overall health.

Key Benefits:

- Boosts immunity
- Supports eye health
- Improves energy levels
- Provides antioxidant protection

Applications:

- Nutritional deficiency
- Weakness
- General health support

CHOLEXOL-A

Cholexol-A is a combination medicine formulated to support cardiovascular health and manage cholesterol levels effectively.

Key Benefits:

- Helps control cholesterol levels
- Supports heart health
- Improves blood circulation
- Reduces cardiovascular risk

Applications:

- High cholesterol management
- Heart care support
- Cardiovascular protection
- Prevention of clot-related complications

SYRUPS

CTRI-MAT

Ctri-Mat improves appetite and supports liver function.

Key Benefits:

- Increases appetite
- Improves digestion
- Supports liver health
- Helps in weight gain

Applications:

- Loss of appetite
- Digestive issues
- Liver disorders

PROANTACID

Proantacid is an effective solution for acidity and gas relief.

Key Benefits:

- Neutralizes stomach acid
- Relieves gas and bloating
- Provides quick relief
- Improves digestion

Applications:

- Acidity
- Indigestion
- Gas problems

MEFMAT-P

Mefmat-P is used for fever and pain relief, especially in children.

Key Benefits:

- Reduces fever
- Relieves pain
- Safe for pediatric use
- Fast action

Applications:

- Fever
- Body pain
- Toothache

MULTIMAT-L

A nutritional supplement for overall growth and health.

Key Benefits:

- Boosts immunity
- Supports growth
- Improves energy
- Provides essential nutrients

Applications:

- Weakness
- Nutritional deficiency
- Growth support

IP-MAT

IP-Mat provides effective pain and fever relief.

Key Benefits:

- Reduces fever
- Relieves pain
- Fast acting
- Safe usage

Applications:

- Fever
- Headache
- Body pain

MEGAMAT

Megamat is used for acidity and gas relief.

Key Benefits:

- Controls acidity
- Reduces gas
- Improves digestion
- Provides comfort

Applications:

- Heartburn
- Gas
- Indigestion

D3 VITASHOT-PLUS

A high-strength Vitamin D3 supplement for bone health.

Key Benefits:

- Improves calcium absorption
- Strengthens bones
- Boosts immunity
- Prevents deficiency

Applications:

- Vitamin D deficiency
- Bone weakness
- Immunity support

MAT-DX

Mat-DX provides relief from cough, cold, and allergies.

Key Benefits:

- Suppresses cough
- Relieves congestion
- Reduces allergy symptoms
- Improves breathing

Applications:

- Cough
- Cold
- Nasal congestion

CALBAR-D3

Calbar-D3 supports bone strength and calcium levels.

Key Benefits:

- Strengthens bones
- Improves calcium levels
- Supports growth
- Prevents deficiency

Applications:

- Calcium deficiency
- Bone health
- Osteoporosis

BELLY BOO

Belly Boo is specially designed for infants to relieve gas and colic.

Key Benefits:

- Relieves gas
- Reduces colic pain
- Improves digestion
- Safe for infants

Applications:

- Infant colic
- Gas problems
- Digestive discomfort
